X1 14. [redacted] BRIEFING/INTEL Took a call from Charles Sorrels, Congressional Budget Office staff, who asked about Soviet air defense spending. After discussing this with [redacted] 25X DDS&T, Sorrels was told the following on an unclassified and unattributed basis: "Since SALT I, Soviets continued to place their traditional high priority on development of strategic air defense. Tempo of research and development has accelerated and increased resources have been devoted to it."

X1 15. [redacted] LIAISON I dropped off with Tom Smeeton, House International Relations Committee staff, [redacted] 25X
X1 [redacted] which he had requested. He also mentioned that Representative William Broomfield (R., Mich.) planned to suggest to the Chairman of the Committee, Representative Thomas E. Morgan (D., Pa.), that the Chairman consider holding hearings with respect to allegations appearing in the press that the North Vietnamese inherited a large number of sensitive files.

X1 16. [redacted] LIAISON I met with Marian Czarnecki, Chief of Staff, House International Relations Committee staff, and showed him the transcript of the April 12 hearing before the Subcommittee on International Trade and Commerce on the subject of export licensing, which the staff had asked to be sanitized for printing. Czarnecki said he had no problem as long as we were satisfied with the procedure.

Czarnecki also mentioned that he and Pat Holt, Senate Foreign Relations Committee staff, were heading up a group of staffers that would be visiting China in late July and requested a briefing. (See Memorandum for the Record.)

X1 17. [redacted] LIAISON I met with Victor Johnson, on the staff of the Subcommittee on International Trade and Commerce, House International Relations Committee, and showed him the excisions we planned to make to the transcript of the hearing on export licensing and told him I would get the excised transcript to him shortly. I also suggested that he check with other witnesses at the hearing before completely declassifying the transcript.

16. (Internal Use Only - WPB) LEGISLATION Talked to Francis Rosenberger, Chief Counsel, Senate Judiciary Committee, concerning the Committee's timetable in considering S. 495. He told me that it was possible the Committee would not have time to consider it before its 11 June deadline, and urged me to provide him with Agency comments informally, because whatever consideration the Committee might give the bill would be at very short notice. Subsequently, I sent up informal comments and a proposed amendment to Rosenberger, J. C. Argetsinger, and Tom Hart, on the staff of the Committee. Bob Carlstrom, OMB said he would have no objection to such an informal approach.

17. (Unclassified - WPB) LEGISLATION Talked to George Gilbert, OMB, about the Administration's position on S. 1439, the Export Reorganization Act. I raised the Agency's concern over the protection of intelligence sources and methods in the various reports required under the proposed legislation. I also discussed this matter with George Murphy, Executive Director, Joint Atomic Energy Committee, and Bill Ashworth, on the staff of the Senate Foreign Relations Committee.

18. (Unclassified - RLB) LEGISLATION Spoke with Ms. Ellen Miller, Senate Government Operations Committee staff, and Mr. Tom Laughlin, on the staff of Senator Floyd K. Haskell (D., Colo.), regarding an amendment by Senator Haskell to the Federal Energy Administration Extension Act, which would establish an Office of Energy Information and Analysis. Since Senator Haskell's amendment is essentially the same as an earlier bill introduced by Senator Gaylord A. Nelson (D., Wis.)--to which the CIA had submitted a views letter--I informed the staffers it would be appreciated if they would consider our position as outlined in that letter in order that our views be taken into account when Senator Haskell's amendment is debated on the floor when the FEA bill comes up.

19. (Unclassified - RJK) LIAISON Called Roy Werner, on the staff of Senator John Glenn (D., Ohio), in connection with his earlier request on certain expenditures of OPEC countries. I told him the paper we had worked up with what I thought were exactly the figures he wanted would be put in the mail for him today. He appreciated our response.

Procedures are not fully clarified because the Committee is not yet fully organized. We did, however, tentatively agree to the following steps. The Office of Secretary of Defense will begin to process Top Secret clearances for three personal staff members of Senator Adlai E. Stevenson, III (D., Ill.). Our response to the Senator's request for their clearances will indicate that OSD will act for the community. For Committee staff members who were also members of the Church Committee, the clearances will be continued. Ben Marshall said he has asked our security people to keep their names in the computer. Office of Security is checking to confirm which staff members are involved. For new staff members, Marshall indicated that the FBI would conduct the background investigation and the Committee would present the names of individuals who had received a completed successful background investigation to the Agency for appropriate security certification by us. We agreed to keep in contact with each other so that we could take appropriate action as the Committee becomes fully organized.
